Overview of the *GRE*[®] General Test

Considering Graduate, Business or Law School?

- The *GRE*® General Test is used **around the world** for:
 - Master's programs
 - Specialized master's in business programs
 - Certificate in law programs
 - MBA programs
 - JD programs
 - Doctoral programs
 - Awarding fellowships
- Scores are good for 5 years!

A Growing Number of Law Schools Are Now Accepting *GRE*® Scores

- Nearly 70 law schools are now accepting or are considering accepting GRE General Test scores — saving applicants time and money from taking another admissions test.
- Law schools at the University of Arizona, Harvard University, Northwestern University and Georgetown University are among the first to begin accepting GRE scores for admissions purposes.
- View the most up-to-date list of law schools accepting GRE General Test scores on the [GRE website](#).

Big Changes Are In Effect!

- **As of September 22, 2023, testing time was reduced by half, from nearly four hours to just under two.**
 - The number of questions in the Verbal Reasoning and Quantitative Reasoning sections is reduced.
 - The number of writing tasks in the Analytical Writing section is reduced from two to one.
 - The unscored section is removed.
 - The scheduled 10-minute break is removed since the test is now under two hours.
- Students will receive scores in 8-10 days (prior: 10-15 days).

Registration is open!

Registration Tips

Getting Started

Important tip: Register early!

- If you register early, you are more likely to:
 - Get your preferred testing location, date and time.
 - Create a preparation plan focused on your test date timing.
- To register, you will need to create an ETS Account at www.ets.org/mygre
 - You will use your ETS Account to register and view your official scores online when they are available.
 - You can also sign up for the GRE® Search Service to help schools find you.
- Prior to registration:
 - You should review the GRE® Information Bulletin for ID requirements, policies, etc.
 - If you need accommodations, be sure to request them in your ETS account. Accommodations must be approved prior to test registration.

ID Documents

When you create your ETS Account and register, have your ID handy.

- Each country has specific official ID requirements for testing.
 - View ID requirements in the *GRE® Information Bulletin* or on the *GRE®* website.
- The name you use when registering **MUST** exactly match your ID documents (excluding accents).
 - Ensure the spellings exactly match.
 - Be sure to provide your entire first (given) name.
 - Do not register using a nickname or with only a first initial.
 - You must supply your entire last (family/surname) name.
 - If you have a two-part last name, you need to be sure to supply your complete last name as it appears on your ID documents (excluding accents).

After You Create an ETS Account You Can Register

The *GRE*® General Test is Administered in Test Centers Worldwide

- In most regions of the world, the test is available on a continuous basis throughout the year.
 - The test is delivered on a desktop computer with a full-screen monitor, mouse and keyboard.
- The test is normally available at more than 1,000 test centers in more than 160 countries.
- View test center locations and seat availability at **www.ets.org/gre/testcenters**.

You Can Also Take the *GRE*® General Test at Home

- It's available everywhere that the test is normally available, based on the country of your account address.
- Identical in content, format and on-screen experience to the usual testing experience, so that you don't need to change how you study for the test.
- Same test fee and payment options, including vouchers.
- Same score scales, score report and score reporting options.
- Accessible, with extended time, extra breaks, screen magnification, selectable colors and other accommodations available.
- Monitored and recorded online through use of live human proctors and artificial intelligence technology.

A Peek Inside the Test

The *GRE*® General Test

General Tips and Strategies

General Tips and Strategies

- Become familiar with question formats and directions beforehand.
- Be aware of time.
- Make sure you understand what each question is asking by reading each question thoroughly and reading all answer choices before answering. There is no credit for partially correct answers.
- Answer every question, even if you have to make a best guess.
- Use knowledge you have to figure out answers to unfamiliar questions.

General Tips and Strategies (continued)

- Do not waste time on questions you find extremely difficult, since no question carries greater weight than any other.
- Do not spend too much time on the review screen, as this will take away from the time you have to spend on the test questions.
- Check the review screen before finishing a section to ensure you have answered all questions.

On-screen Calculator

- Operated with the keyboard or mouse.
- Has four arithmetic functions, square root, memory and parentheses.
- Has a Transfer Display button to transfer a number to a Numeric Entry question (with a single answer box).
- Respects order of operations (e.g., the result of $1 + 2 \times 3$ is 7, not 9).
- Most questions do not require difficult computations, so the calculator should be used only when needed (e.g., larger numbers, long divisions or multiplications, square root, etc.).
- Only available in the Quantitative Reasoning section

The Analytical Writing Section

- Assesses critical thinking and analytical writing skills
- Consists of one timed writing task:
 - Analyze an Issue
- Essay responses are typed on the computer
 - ETS software has a basic word processor that contains the following functionalities:
 - Insert text
 - Delete text
 - Cut and paste
 - Undo the previous action.
 - Tools such as a spell checker and grammar checker are not available

Analyze an Issue Task

Section 1 of 3 | Question 1 of 200:29:49 ⌵ Hide Time

As people rely more and more on technology to solve problems, the ability of humans to think for themselves will surely deteriorate.

Write a response in which you discuss the extent to which you agree or disagree with the statement and explain your reasoning for the position you take. In developing and supporting your position, you should consider ways in which the statement might or might not hold true and explain how these considerations shape your position.

Cut Paste Undo Redo

Strategies for Analyze an Issue Tasks

Questions to consider when approaching the Issue task:

- What precisely is the central issue?
- What precisely are the instructions asking me to do?
- Do I agree with all or with any part of the claim? Why or why not?
- Do I agree with the claim only under certain circumstances? What are those circumstances?
- Does the claim make certain assumptions? If so, are they reasonable?
- Do I need to explain how I interpret certain terms or concepts used in the claim?
- If I take a certain position on the issue, what reasons support my position?
- What examples — either real or hypothetical — could I use to illustrate those reasons and advance my point of view? Which examples are most compelling?
- What reasons might someone use to refute or undermine my position?
- How should I acknowledge or defend against those views in my essay?

Analytical Writing Tips and Strategies

- Practice writing under timed conditions.
- Organize your thoughts and prepare an outline.
- On the Issue task, you should support your position on the issue with reasons and examples drawn from your reading, experience, observations and/or academic studies.
- Leave a few minutes at the end of each task to read what you have written and make any revisions that you think are necessary and to check for obvious errors.
- Avoid excessive irony or humor in your essay responses because it may be misinterpreted by readers.

- Avoid excessive irony or humor in your essay responses because it may be misinterpreted by readers.

The Verbal Reasoning Measure

- Assesses your ability to understand what you read and how you apply your reasoning skills
- Contains three question types:
 - Reading Comprehension sets
 - Text Completion
 - Sentence Equivalence
- To accommodate different interests and backgrounds, there is a balance of questions in
 - Natural Sciences
 - Social Sciences
 - Humanities
- No specific knowledge of any subject is required.

General Strategies for the Quantitative Reasoning Measure

- Read carefully so that you don't overlook information or misread the question. You don't want to answer something that is not being asked.
- Be careful not to make unwarranted assumptions. For example, not all numbers are integers nor are all numbers positive.
- Geometric figures may not be drawn to scale, so avoid estimating sizes by sight or by measurement on such figures.
- When appropriate, avoid lengthy calculations by rounding numbers before computing an estimate, by looking for comparisons, and by recognizing and continuing numerical patterns.
- After arriving at an answer, reread the question to make sure your answer is reasonable, given what was asked.
